

CERAFLUX

An ISO 9001 Certified Company

**"The Only Indian Company Manufacturing
Wide Range of Metallurgical Products "**

CERAFLUX- 66J

(Sodium-Free flux for the treatment of the liquid aluminium metal)

PRODUCT

CERAFLUX – 66J is sodium-free off-white powder flux made from salts of chloride & fluorides recommended for dressing operation for all aluminium alloys.

FUNCTION

Removal of oxides in the molten metal.

APPLICATION

CERAFLUX-66J is recommended for treatment of the molten aluminium metal before casting. CERAFLUX – 66J is recommended for dressing operation which is applied over the molten metal and stirred. The CERAFLUX -66J influences easy removal of metal free dross and removal of non-metallic inclusion from molten metal.

APPLICATION RATE:

0.3 - 0.5 % for crucible melting

50 to 75 gms per sq.ft. for reverboratory and other furnaces.

BENEFITS

- 1 Less quantity to use.
- 2 Elimination of release of fumes in the environment.
- 3 Easy dosage due to better disposition of the grains.

STANDARD PACKING 25, 50 kg HDPE bag

SHELF LIFE: - 12 months from date of manufacturing in closed intact packing kept in cool and dry place

PRECAUTION: Flux is hygroscopic in nature so store in dry atmosphere.

NOTE:- Above information is true and accurate based on controlled laboratory testing. However user is responsible for determining suitability for application at their end. No guarantee is implied since the condition in actual use differs widely & beyond our control.
