

CERAFLUX

An ISO 9001 Certified Company

**"The Only Indian Company Manufacturing
Wide Range of Metallurgical Products "**

CERAFLUX- PT

(Tableted flux for the treatment of the molten aluminium metal)

PRODUCT:

CERAFLUX - PT is pink coloured tablet made from salts of chloride & fluorides recommended for drossing operation for aluminium alloys.

FUNCTION

Removal of oxides from the molten metal.

APPLICATION

CERAFLUX-PT is recommended for treatment of the molten aluminium metal before casting. CERAFLUX – PT is recommended for drossing operation which is plunged into the molten metal. The CERAFLUX -PT influences easy removal of metal free dross and removal of non-metallic inclusion from the bottom of the molten metal as it is plunged into the metal.

APPLICATION RATE

0.1- 0.2 % of metal charged.

STANDARD PACKING: 20 kg C box.

SHELF LIFE : 12 months from date of manufacturing in closed intact packing kept in cool and dry place.

PRECAUTION : Flux is hygroscopic in nature so store it in dry atmosphere.

NOTE:- Above information is true and accurate based on controlled laboratory testing. However user is responsible for determining suitability for application at their end. No guarantee is implied since the condition in actual use differs widely & beyond our control.
