

CRAFTANOL – THINNER

(Alcohol with inbuilt Binder)

THE PRODUCT :

CRAFTANOL –Thinner is a general purpose thinner with inbuilt binder.

PRODUCT FUNCTION :-

CRAFTANOL – Thinner is mainly used to dilute alcohol based refractory coating. Generally when coating is diluted with thinner it will reduce the binding property of coating.

Craftanol –Thinner is having inbuilt binder hence although on adding thinner to coating it not reduces the binding property of coating. Ensuring good coating for application.

PROPERTIES : The physical property of CRAFTANOL – Thinner is as follows :

- 1) Colour : PALE YELLOW**
- 2) Appearance : Liquid**
- 3) Specific Gravity : 0. 78 to 0. 81 @ 27 °C ± 3° C**
- 4) Viscosity : 11 - 13 Sec. By B4 cup @ 27°C± 3° C**
- 5) Coating by Brushing : Satisfactory ignition and formation of hard surface**

PACKING : 200 Ltr. M.S. Barrel, 50 Kg. P.C.

**SHELF LIFE : 12 months from the date of manufacturing kept in dry place
With intact packing.**
