

PRODUCT DATA SHEET

D'GASSER- 20 (Aluminium degassing tablet)

PRODUCT:-

It is very handy degassing technique by using perfectly compressed tablets of chemical powder (mainly Hexachloroethane). This compaction is very important to control the rate of tablet dissolution, which ultimately leads to proper release of chlorine gas for degassing.

PRODUCT FEATURES :

1. D'Gasser-20 is a compacted tablet available in 50gms, 100gms, 250gms & 500 gms for treatment of any size of melt.
2. Chlorine gas is evolved only after decomposition of tablet in the melt, so there is no question of hazardous free chlorine while in storage.

APPLICATION RATE:- Normally 0.10 to 0.20% by weight of molten metal for all grades.

STANDARD PACKING : 20 Kg C.B. box

IMPORTANT : Store the product in cool and dry place and unpack as per requirement.

NOTE:- Above information is true and accurate based on controlled laboratory testing. However user is responsible for determining suitability for application at their end. No guarantee is implied since the condition in actual use differs widely & beyond our control.
